* At Harrogate we provide trained, on-the-ground assistants for all our beginner riders. We believe this is the easiest and safest way to learn.

We recognize that some schools require beginners to start with private lessons. While this is a perfectly acceptable option, we have found that many children really miss interacting with their peers. Private lessons can also be quite cost prohibitive. The Harrogate system allows our new riders to learn with the comradery of friends, increasing their confidence as they develop basic skills.

While two months is usually enough time for young riders to attain a degree of independence, it is our policy to automatically suspend the fee after the first two months regardless.
